

42" Round Marine Grade Polymer Newport Dining Table with Aluminum Frame

Product SKU: RPKD4228NU

Description

Enhance your patio or dining hall with the 42" Round Dining Table! The tabletop is constructed of marine grade polymer, a material that is specially designed for aquatic environments. It is nonporous so dirt and chemicals will not be absorbed making it easy to clean. It is also UV-stabilized to prevent fading and will not rot, mold, swell, or blister. Choose to include a hole for an umbrella in the center at no additional cost. The aluminum frame is sandblasted and then powder coated with your choice of frame color, creating a rust-resistant finish. This round MGP dining table is a perfect addition to hotels, resorts, and retirement communities. Pair with dining chairs from our collection to dress this table up for formal events or keep things casual.
