Description

Our space saving 3.2-gallon Precision stainless steel round waste basket is a must have for offices, hospitals, hotels, or any other deskside location. Constructed out of recycled heavy-gauge 304 grade low-maintenance stainless steel that is both rust and finger-print resistant. To protect the floor and to prevent the waste basket from moving, a rubber ring has been added to the bottom of the unit. Includes a polypropylene liner with an extended lip for easy trash removal. Keep your office looking professional for a lifetime with this cost effective waste basket!
