Description

Our High Capacity 30-Gallon fiberglass food court series trash receptacle is the leading product for high traffic venues. With a convenient hands-free pitch-in lid, and a high capacity makes this can perfect for simple and efficient waste management. Made of a heavy duty fiberglass material coated with a polyester gel, it shields from staining and discoloration, unlike other trash receptacles similar. The outer edges are also protected with a sturdy rubber strip that prevents chipping and cracking. A recessed base is added to the construction to make this can more stable than the average trash receptacle. Backed by our 3-year commercial warranty and 100% made in the USA.
