Description

For a decorative waste management approach, the solution is our 32 Gallon Steel Trash Receptacle with Ash Top Lid and custom cut panels. Designs on each panel are laser cut to precision. Made from strong steel that is powder-coated for protection against the outdoor elements and resistant to rust and scratches. The ash top lid allows guests to dispose of their cigarette waste safely before entering the building. Perfect for business office buildings, hospitals, hotels, and courthouses. Includes a plastic liner with handles to quickly remove the trash, a security cable from the lid to the receptacle is available upon request. Proudly made in the USA!
